

SUSTAINABILITY & STAYOKAY

WALK, SEE, TASTE AND DISCOVER.

For 90 years, local and international guests have checked in at Stayokay for new adventures and experiences. As we would say: Fill your life with experiences, not things. Because we believe the best experiences happen once you get out there.

A long time ago...

Stayokay made a conscious commitment to sustainable entrepreneurship, which is beneficial for society and the environment. We strive to become the Netherlands' most sustainable ho(s)tel chain as well as a CO₂-neutral organisation. In 2008 we became the first accommodation chain to earn the European Eco-label. This label is the number one label for environmentally friendly products and services.

At Stayokay you'll find sustainability hiding around every corner. Always contributing to sustainable development goals, a better planet and a relaxed stay. From an organic breakfast to recycled clothing for our staff, we've got it all!
